

Maria Godinho

ARTIST

INFORMATION

My name is Maria Godinho, I am from Póvoa de Varzim. I am an artist living in Cascais.

"When I begin a piece through an idea, and if I commit to it until the last consequence, in the end the result appears."

M. Godinho

I worked in accounting for years, but from a very early age I have been fascinated with everything related to art in all of its essence. For this reason, over the years, I have done various courses in drawing and painting; in 2021 I graduated from a specialized course in painting and sculpture in Cascais School of Art & Design.

I paint figurative abstract, often more towards the abstract than towards the representation of the image, using a spatula do add movement, light and loose brush strokes with texture. My love for art is being in a constant state of learning of its diverse forms of expression.
