

Vera Marantes was born in Aveiro and at the age of 15 was already painting and making exhibitions at the scouts headquarters (CNE) in Beato (Lisbon) of which she was a member. She graduated in Architecture, profession that she exercised in CML and for some years as collaborator in several architectural studios. Later, by choice to be able to accompany her 4 children, she returned to painting in which she found her way of expressing and a plenitude to externalize everything she feels. She continues to seek her own path, never stopping to create and to learn various styles and techniques with respected artists. She exhibits regularly since 2008. He made collective and individual exhibitions from north to south of the country: Braga, Viana do Castelo, Porto, Estoril, Sintra, Lisbon, Odivelas, Amadora, Oeiras and Monchique.
